

MODALITY OF RESERVATION OF THE ROOMS

It is possible to signal a preference between the selected hotels. The allocation of the hotel is subordinated to the effective availability. Once exhausted the availability near the marked hotel, will be assigned a hotel of equal category or inferior category. The effective confirmation of the reservation will happen directly by the hotel. The emission of the invoice for the amount total of the stay will be by the hotel at the moment of the departure.

I authorize the Organizational Secretariat to supply to the indicated Hotel my data for being contacted.
